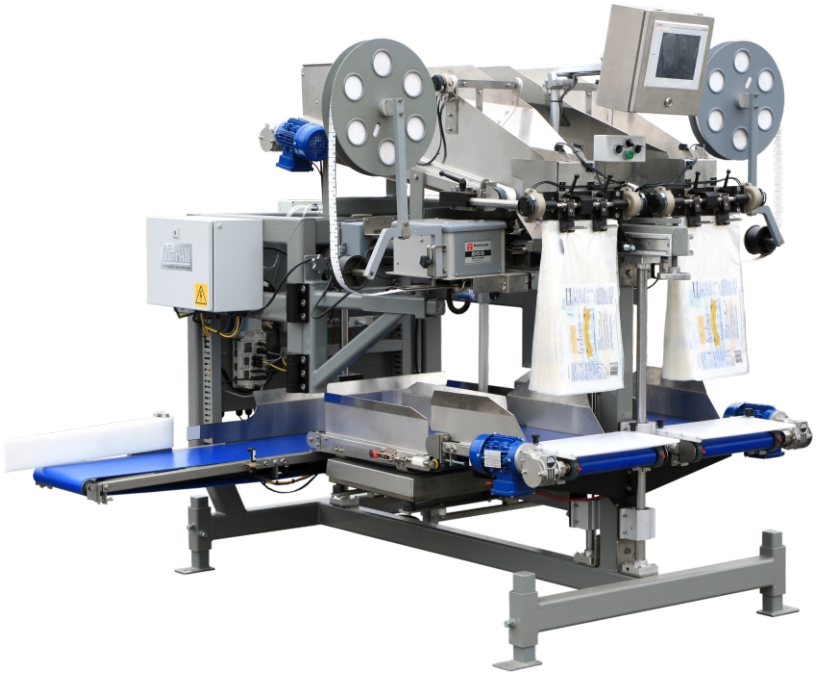
AG-PAK

Produce Packaging since 1963

AP7000 and AP7000CW Double-Head Wicketed Baggers



Ag-Pak AP7000CW Double-Head Wicketed Bagger with Integrated Check-Weighers

AP7000 Double-Headed Wicketed Bagger is Fast, Reliable, Easy to Operate, and Easy to Maintain.

The standard AP7000 model features twin baggers fed from two collectors. The filled bags are closed by standard Kwik Lok closers. Closed bags are transferred to a rear outfeed cross conveyor that can convey bags to either side.

AP7000CW Double-Headed Wicketed Bagger with Check Weighers incorporates two check weighers before the outfeed conveyor (one for each bagging head). No singulation required for check-weighing.

Standard AP7000 is available with an extended frame to allow future installation of check weighers.

Easy to use touch screen controls are standard on both models.

Ag-Pak is a manufacturer and systems integrator of produce packaging equipment. Family owned since 1963, Ag-Pak is one of the oldest and most respected agricultural packaging companies. We continue to offer the most advanced and reliable produce packing systems backed by our experienced service technicians.

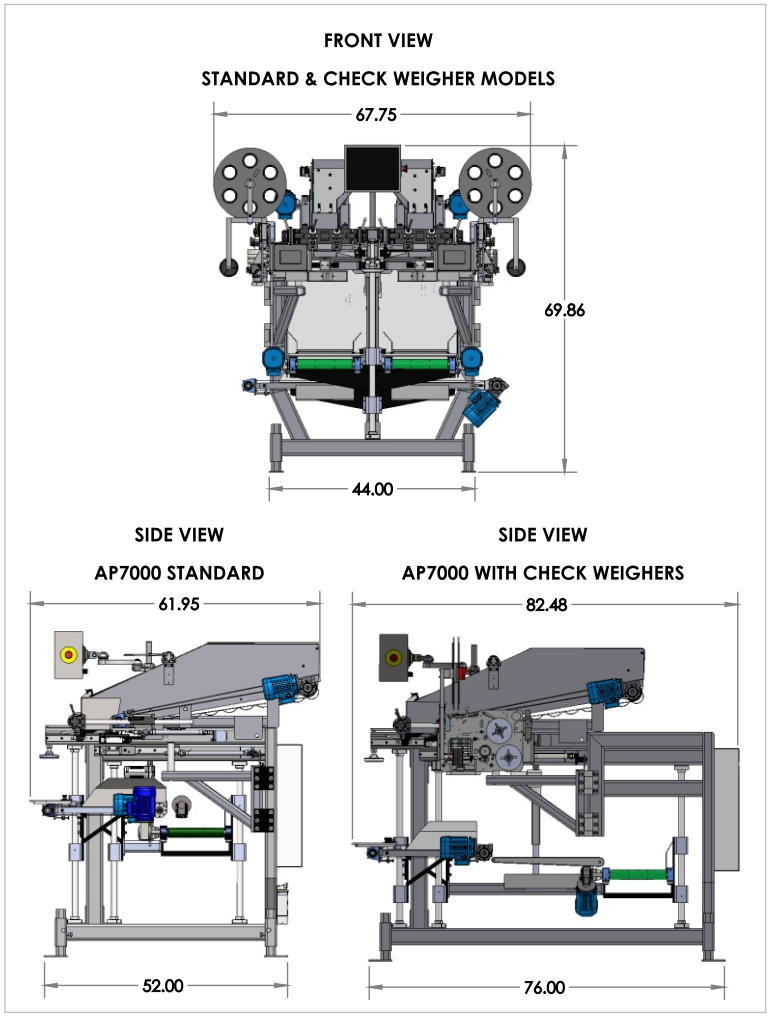
AP7000 / AP7000CW Features and Benefits

- **Fast** – Capable of 50 bags per minute with 5lb bags. (Actual rates depend on application.)
- **Reliable** – Stainless steel contact surfaces, powder coated frame, high quality components, and proven electronics ensure minimal down time.
- **Touch Screen User Interface** – Easy operation through quick access to menus and recipes. Includes integrated parts drawings with exploded views for part identification.
- **Easy Adjustability** – Both horizontal and vertical wicket pin adjustments to accommodate different bag sizes and manufacturers – Tool-less, quick bag change-over
- **Compact Design** – Minimizes footprint. Check weigher model designed to fit extended frame under scale.
- **Bridge Detecting Photo Eyes** – Help ensure even product flow and reduce operator involvement
- **Innovative Vane Block and Inline Vacuum Generator** – Reliable and quiet bag opening
- **UL Listed Electrical Cabinet** – Built in-house by our UL-certified electricians
- **Easy to Maintain** – Heavy duty closure swing arms allow easy access to closure devices – Convenient control cabinet location – Readily available commercial components



Service

Ag-Pak's full-time staff of experienced technicians keep our customers on-line and productive. They perform Start-ups, Maintenance, Programming Changes, Repairs, Upgrades, and Complete Rebuilds.

We are North America's oldest NEWTEC dealer and specialize in repairing, upgrading, and rebuilding NEWTEC weighers and Celox optical graders.
